

JULY 2023

Tower Notes

Let's Hear it for

Founded by two college friends who dropped everything to carve their own path in the beer industry, Brew Gentlemen brews soft and balanced beers, creates meaningful experiences, and contributes to the revitalization of the historic steel town of Braddock, Pennsylvania.

Since opening in 2014, BG has developed their reputation for making soft, balanced beers – best exemplified by their flagship IPA, General Braddock's. The company is run by a small team with a shared belief that beverages bring people together.

In July, BG will bring its Berry Party – a beer made with fresh blueberries, blackberries and raspberries – to the BG's Downtown Beer Garden. It's the perfect brew for a sunny afternoon on the plaza. And if you're looking to sample a variety of beers, watch for details on BG's beer tasting August 9th.

Happy sampling! We'll see you in the Beer Garden.
